

NAVEEN KUMAR N

Senior Full Stack Developer | AI-Enabled Backend Engineer

+91 96002 65620 • Tamil Nadu, India

✉ naveen2426kumar@gmail.com [in LinkedIn](#) [globe Portfolio](#)

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5.5+ years designing and delivering enterprise web applications across Healthcare, FinTech, ERP, E-Commerce and Raffle-gaming platforms. Expert across Angular, React and Next.js on the front end and Node.js / NestJS with PostgreSQL and MongoDB on the back end, with a strong foundation in microservices, REST APIs, AI-powered automation (OCR + LLMs), cloud deployment and performance optimization. Proven record of leading teams, onboarding enterprise customers and shipping high-quality software in Agile environments.

CORE COMPETENCIES

Full Stack Development • System Design • Microservices • REST APIs • Multi-Tenant SaaS • Database Design • Performance Optimization • AI & LLM Integration • OCR Automation • Cloud Deployment (AWS) • CI/CD • Agile • Team Leadership

TECHNICAL SKILLS

- **Frontend:** Angular, React.js, Next.js, React-Redux, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap
- **Backend:** Node.js, Express.js, NestJS, TypeORM, Sequelize
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Cloud & DevOps:** AWS EC2, Docker, Nginx, PM2, Git, CI/CD
- **AI & Automation:** OpenAI, Claude, Gemini, Codex, Prompt Engineering, OCR, Tesseract
- **Architecture & Other:** Web3.js, Blockchain & Crypto APIs, Lit Framework, Microservices, Multi-Tenant SaaS

PROFESSIONAL EXPERIENCE

Raffle Tech LLC — Senior Full Stack Developer

May 2025 – Present

Tech Stack: Next.js · NestJS · TypeScript · PostgreSQL · TypeORM · AWS · Docker · OCR / LLMs

- Architected and shipped a scalable, multi-tenant Raffle Management platform using Next.js (App Router, SSR) and NestJS, serving enterprise and government clients.
- Engineered secure REST APIs with NestJS and TypeORM, cutting API response times by ~30% through query optimization, indexing and caching.
- Designed a custom random winner-selection algorithm in PostgreSQL guaranteeing fairness, uniqueness and speed directly at database scale.
- Built AI-powered invoice validation using Tesseract OCR and LLM prompt engineering (OpenAI, Claude, Gemini), plus intelligent forms for automated data extraction.
- Delivered secure government digital projects for Middle East clients and supported live enterprise onboarding with minimal downtime.
- Owned CI/CD pipelines and AWS EC2 deployments (Nginx, PM2, Docker); led code reviews and mentored junior developers.

G2 Technology and Solutions — Senior Software Engineer

Dec 2024 – Feb 2025

Tech Stack: Angular · Next.js · Lit / Web Components · MongoDB

- Developed enterprise healthcare dashboards in Angular, including a real-time patient-tracking system and a secure medical-records interface.
- Integrated Next.js applications with scalable backend services and NoSQL (MongoDB) data layers via an ORM.
- Built reusable, framework-agnostic UI components with the Lit Framework and Web Components, improving performance and consistency across applications.

Vishnu Prasad Research Center — Associate Full Stack Developer

Jul 2023 – Dec 2024

Tech Stack: *React.js · Node.js · Express · MySQL · Sequelize · Angular*

- Built ERP and E-Commerce platforms end to end using React.js and Node.js / Express — covering inventory management, financial tracking and order management.
- Designed REST APIs and optimized MySQL performance with indexing and query tuning via Sequelize ORM.
- Integrated third-party APIs and secure payment gateways; delivered a full-featured travel-booking application with modern UI / UX.

Infosys Limited — Senior System Engineer

Sep 2022 – Apr 2023

Tech Stack: *Angular · TypeScript · Reusable Libraries · US Banking Domain*

- Developed reusable Angular libraries and shared component modules for enterprise US-banking applications.
- Implemented secure authentication, transaction-management and loan-management features on regulated banking systems.
- Delivered performance upgrades, improving UI responsiveness and maintainability within an Agile, compliance-driven team.

Sparkout Tech Solutions — Associate Full Stack Developer

Feb 2022 – Aug 2022

Tech Stack: *React.js · Redux · Node.js · Web3.js · Blockchain & Crypto APIs · Cloud*

- Integrated blockchain and crypto APIs (Web3.js) into production React applications for secure, real-time on-chain data.
- Built crypto dashboards with Redux — including a real-time cryptocurrency price tracker and a blockchain-based voting system for tamper-proof election data.
- Deployed and managed Node.js applications in the cloud, owning the full build-to-production lifecycle.

IONSTAR India Pvt Ltd — Full Stack Developer

May 2020 – Oct 2021

Tech Stack: *MongoDB · Express · Angular · Node.js · React.js · REST APIs*

- Built and shipped MEAN Stack (MongoDB, Express, Angular, Node.js) applications end to end, exposing RESTful APIs consumed by the front end.
- Delivered a Customer Data Platform unifying data from multiple sources into a single, actionable dashboard.
- Built an e-commerce site with a robust product catalog and secure payment integration.

KEY PROJECTS

- **Raffle Management Platform** — Multi-tenant raffle platform with coupon validation, a custom winner-selection engine, reporting dashboards and integrated payments.
- **AI Invoice Validation System** — OCR + LLM-powered platform that reads, extracts and verifies invoice data automatically, combining Tesseract OCR with prompt-engineered validation.
- **Healthcare Dashboard** — Enterprise Angular dashboard with reusable Lit components and real-time analytics.
- **Smart Surveillance & Data-Security Systems** — AI-based surveillance, OCR-based social-media image security (Tesseract), and a neural-engine autonomous-car data-security project.

KEY ACHIEVEMENTS

- Improved application performance by up to 50% through code-splitting, query optimization and caching.
- Reduced API response times by ~30% in production systems via backend and database tuning.
- Led and mentored a team of 5 developers, consistently delivering projects ahead of schedule.
- Pioneered AI-driven automation (OCR + LLMs) that eliminated manual invoice review and data entry.
- Delivered enterprise solutions across Healthcare, FinTech, ERP, Government and E-Commerce domains.
- Built scalable, multi-tenant backend systems handling large customer datasets.

CERTIFICATIONS

Professional Angular Certification • MEAN Stack Developer Course • React-Redux Certification • Python Certification

EDUCATION

Erode Sengunthar Engineering College — B.E. Computer Science & Engineering 2016 – 2020
Grade: 74%

PERSONAL DETAILS

Date of Birth	24 January 1997
Father's Name	T. S. Neelakandan
Nationality	Indian
Marital Status	Married
Languages	English, Tamil
Hobbies	Music, Drawing
Address	Dindigul, Tamil Nadu – 624001

DECLARATION

I hereby declare that the above information is true to the best of my knowledge.

(NAVEENKUMARN)
