

NAVEEN KUMAR N

Senior Full Stack Developer | AI-Enabled Backend Engineer

+91 96002 65620 • naveen2426kumar@gmail.com • Tamil Nadu, India

PROFESSIONAL SUMMARY

Senior Full Stack Developer with **6+ years** of experience designing and delivering enterprise web applications across Healthcare, FinTech, ERP, E-Commerce and Raffle platforms. Expertise in Angular, React, Next.js, Node.js, NestJS, TypeScript, PostgreSQL and MongoDB. Strong background in scalable backend architecture, microservices, REST APIs, AI-powered automation, OCR, cloud deployment and performance optimization. Experienced in leading development teams, onboarding enterprise customers, and delivering high-quality software using Agile methodologies.

CORE COMPETENCIES

Full Stack Development • System Design • Microservices • REST APIs • Multi-Tenant SaaS • Database Design • Performance Optimization • AI & LLM Integration • OCR Automation • AWS EC2 • CI/CD • Agile • Team Leadership

TECHNICAL SKILLS

Frontend	Angular, React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap
Backend	Node.js, Express.js, NestJS, TypeORM, Sequelize
Database	PostgreSQL, MongoDB, MySQL
Cloud / DevOps	AWS EC2, Git, CI/CD, Nginx, PM2, Docker
AI	OpenAI, Codex, Claude, Gemini, Prompt Engineering, OCR, Tesseract

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer — Raffle Tech LLC

May 2025 - Present

- Designed and developed a scalable Raffle Management platform using Next.js and NestJS.
- Built secure, high-performance REST APIs and optimized backend services, reducing API response times by ~30%.
- Designed a custom random winner-selection algorithm ensuring fairness, uniqueness and high performance directly from large databases.
- Built AI-powered invoice validation using OCR and LLM prompt engineering, plus intelligent forms for automated data extraction and validation.
- Delivered secure government digital projects for Middle East clients and supported live enterprise onboarding with minimal downtime.
- Designed PostgreSQL schemas, optimized complex SQL queries, and led code reviews, deployments and mentoring of junior developers.

Senior Software Engineer — G2 Technology and Solutions

Dec 2024 - Feb 2025

- Developed enterprise healthcare dashboards using Angular.
- Integrated Next.js applications with scalable backend services.
- Built reusable UI components using the Lit Framework and improved application performance and UX.

Associate Full Stack Developer — Vishnu Prasad Research Center

Jul 2023 - Dec 2024

- Developed ERP and E-Commerce platforms using React.js and Node.js.
- Designed REST APIs and optimized MySQL database performance.
- Integrated third-party APIs and payment solutions; delivered responsive applications with modern UI/UX.

Senior System Engineer — Infosys Limited

Sep 2022 - Apr 2023

- Developed Angular libraries for enterprise US banking applications.
- Improved UI performance and application maintainability on secure banking projects.

Associate Full Stack Developer — Sparkout Tech Solutions

Feb 2022 - Aug 2022

- Collaborated with engineers, researchers and data implementation specialists to design advanced, elegant and efficient systems.
- Deployed Node.js applications to the cloud with strong knowledge of cloud application and deployment stages.
- Integrated Blockchain and crypto APIs; built React applications for crypto and dashboard products.

Full Stack Developer — IONSTAR India Pvt Ltd

May 2020 - Oct 2021

- Built and shipped MEAN Stack applications end to end.
- Developed Node.js, Angular and React.js applications.
- Built interactive consumer-data flows from multiple systems, exposing RESTful APIs to the UI through a Node.js backend.

KEY PROJECTS

- **Raffle Management Platform** — Multi-tenant raffle platform with coupon validation, winner-selection engine, reporting dashboards, payment integration and a custom random selection algorithm.
- **AI Invoice Validation System** — OCR and LLM powered invoice verification platform.
- **Healthcare Dashboard** — Enterprise Angular dashboard with reusable components and real-time analytics.

KEY ACHIEVEMENTS

- Improved application performance by up to **50%** through optimization.
- Reduced API latency by approximately **30%** in production.
- Led and mentored a team of **5 developers**.
- Delivered enterprise solutions across Healthcare, ERP, FinTech, Government and E-Commerce domains.
- Built scalable backend systems handling large customer datasets.

EDUCATION

B.E. — Computer Science and Engineering

Erode Sengunthar Engineering College
